

# GARAGE

PREBUILT  
WALL PANEL  
PACKAGES

# INTRODUCING NELSON LUMBER'S PANELIZED GARAGE PACKAGE PROGRAM.

Cuts Down On Labour, Time & Material Waste!

Your package will include a panel layout, truss layout and overhead door (optional opener with remote available), 30" wide entry door & one 36x30" fixed window.

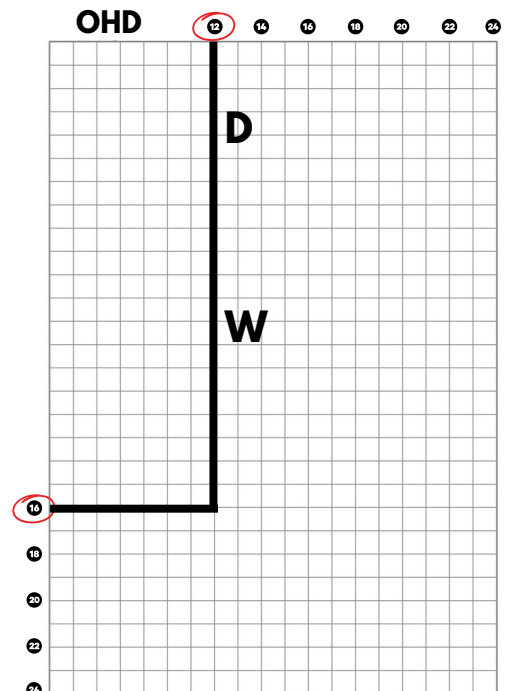

## LET'S BUILD YOUR GARAGE!

Overhead Door Side (8x7 = Single Car/16x7 = Two Car)

12 14 16 18 20 22 24

- 1 Circle the number representing the **width** of your garage
- 2 Circle the number representing the **depth** of your garage
- 3 Now draw **two lines** to create the outline of the garage size you want
- 4 Mark a "D" where you want a door, mark a "W" where you want your window(s), mark **OHD** where you want the overhead door.

### EXAMPLE

### NOTES:

- It's the homeowners responsibility to obtain the proper (required) permits
- The site must be prepared & ready for your garage package wall panels
- The site must be accessible by a large truck with an arm

**i** Roof trusses are positioned at 24" O/C
