DRYWALL

When you design a space every element contributes to the performance— even the drywall. Whether it's creating healthier spaces with walls that clean the air, more restful spaces with walls that control sound, or spaces where durable walls can handle anything, we know walls matter. Nelson Lumber supplies innovative drywall solutions that enhance occupant comfort and create better environments for healthy living.

STEEL

Nelson Lumber offers both residential and commercial steel solutions. Supplying various steel products that include: studs, beams, and structural steel components. This diverse product mix allows for any residential and commercial framing projects.

- **RESIDENTIAL STEEL**

Light gauge 18mm - 33mm materials designed to build interior walls.

- **COMMERCIAL STEEL**

Structural 33mm - 97mm with engive 58, designed for exterior walls.

INSULATION

Nelson Lumber supplies industry leading insulation products for both residential and commercial insulation solutions. Ranging from attics, floors, and walls, our insulation products conserve energy and improve acoustics, fire resistance, and air quality in the spaces where people live, work, and play.

ONE STOP SHOP INCREASING OVERALL PROJECT EFFICIENCY

The Nelson system of pre-planning virtually eliminates costly and time-consuming construction errors and material shortages or overages.

CEILINGS

Nelson Lumber supplies Armstrong commercial & residential ceiling products. From ceiling products that include mineral fibre/fibreglass, felt, wood, metal, and more, to a variety of exposed and concealed ceiling grid systems.

Nelson Lumber provides top-quality Armstrong Ceiling products for all projects ranging from rec-rooms to hotels, restaurants to office towers, studios.....any place where form meets function.

Please speak to one of our in-house experts to help create the layouts and the budget that works best for your project. Big or Small.
